REASONS FOR ALLOWANCE

1. Claims 1-10, 14-28 allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art made of record does not teach or fairly suggest in combination establishing said connection over two or more logical links along a respective two or more maximum disjoint paths and aggregating said logical links into a virtual path having said specific traffic parameter.

The prior art further fails to teach a switch for routing traffic between said input port and said corresponding output port according to a connectivity map and establishing communication between said near end and said far end data terminals along a logical link further comprising means for failure detection, wherein said means for failure detection monitors said input port and generates a fault indication whenever said physical route is interrupted upstream from said switching node.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
